

COPPER FILTER

BY WMDTECH

High grade Copper used in filtering out unwanted X-Ray radiation

Filter your Golden Engineering X-Ray Source with one of WMDTech's Copper Filters. These filters utilize very high grade copper to filter out unwanted X-Ray radiation.

Choose from one of two types of Filters - either a Fitted Cap in which the Copper Filters can be exchanged for 1 of 4 different Copper thicknesses, or a one size fits all Rubber Cap which comes with one set of copper thickness.

FEATURES

99.9% Oxygen Free Pure Copper

Environmentally Sealed to Prevent Tarnish

Custom Cap for each Golden Engineering Generator

Easy On/Off Design
